2. Objective of the policy

The CSR & Sustainability Policy provides high-level guidance on how to conduct business. It is built on the ten principles of the UN Global Compact.

3. Policy

Solar is committed to following global and local rules, regulations and standards that support a sustainable agenda and aims to cause the least possible harm to daily life.

Environment

Solar seeks to reduce environmental impacts and promote sustainable solutions via our product and services portfolio.

We constantly seek to reduce carbon emissions by finding new and innovative sustainable processes and solutions and evaluate daily operations at our warehouses, branches and offices. Specific targets will be established and measured on a regular basis.

We work closely with our partners in the quest for delivering sustainable solutions for everyday life.

People

At Solar, employees are treated equally, irrespective of gender, age, race or religion etc. We ensure equal rights for everyone in terms of employment, training and promotion.

We work to ensure safe working conditions for our employees and respect human rights in our operations as well as in our business relations.

Business

Solar conducts its business in an ethical way and complies with all relevant rules/regulations. We continuously seek to minimise our footprint by the way we source, distribute and sell our products.

Solar is dedicated to turning energy efficiency into a profitable and responsible business for our customers. As such, we have established a green profile by working to promote sustainable, climate-friendly and

energy-efficient solutions and have launched initiatives for the benefit of society and the environment.

Corruption is strictly against our group values.
